COMMISSION STRUCTURES

ROI Income:

ROI income, or returns on investment, will range from 1.5% to 2% depending on the customer's selected package.

Referral Income

Payment for referrals will range from 8% to 10%. It's a program or reward created by Bitzbank to encourage new & existing customers. Tell your friends, relatives, or anybody else about your business. Expand your network and earn a respectable reward for each referral.

Get an extra incentive of 8% to 10% based on the initial investment package that your referral selects.

For every referral, receive instant credit in your R&B wallet (income wallet).

Redeem your Referral Earnings any day, any time.

Binary Income:

Bitzbank offers fixed 10% income in binary.

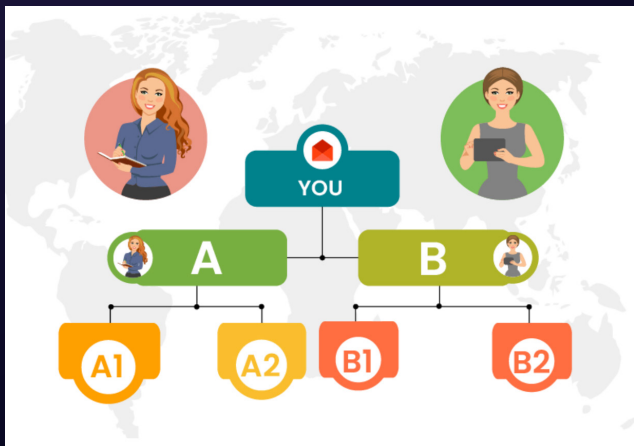

Every package will have a capping limit.

We provide affiliates a fixed 10% binary income as a way to reward our customers for their teams.

How does it function in reality?

Based on the 1:1 ratio, 10% of binary income is generated.

Assume the role of A. The recommendations on your left and right, respectively, are B and C. Stated differently, B and C have signed up with you through your referral link.

Assume B funded his account with a \$1,000 investment. In a similar vein, C used \$1400 to activate his account. B is the weaker party in this instance (left referral link).

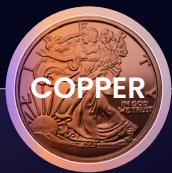

Consequently, \$100 will be credited to your R&B wallet (income wallet), 10% of \$1000.

Any remaining binary will be carried over to the following working day or until it becomes applicable once again. The people will continue to join you by using the referral links on the left and right. You will therefore get payment for referrals from both parties.

Binary Matching Bonus

When you reach a specific level of binary income, you can receive a bonus known as a binary matching bonus, which can range from \$200 to \$100,000. It's an additional benefit or initiative created by Bitzbank to encourage their efforts to bring in new, motivated clients and leaders.
